

petfinder™

presents a breakthrough in affordable,
wireless communication service

Activate today and get connected to get our advanced multi-national telecommunications network to instantly track and locate your pet.

We have many service plans to meet your needs starting at \$12.99 for 100 data transmission airtime minutes

Look at our Services:

- Locate your pet anytime from almost any computer via our multinational telecommunications network.
- **Local and long distance cellular networks and GPS and satellite transmissions provide the most accessible and accurate device location possible.**
- Internet access allows exchange of data and documents among computer users (via wireless broadband optical or wireless networks) so that pet information may be retrieved efficiently.
- Access to host computer application software for searching and retrieving information from our databases and computer networks.

 **petfinder™**
Network Service Coverage

Other features from our multi-national wireless network include:

- **Easy Access**

Access PetFinder's location anytime using your Internet-enabled computer or wireless handheld device, SMS text messaging, or by calling the network on your cellular phone or traditional land line telephone.

- **On Demand**

Wireless GPS and satellite technology to allow you to look up your device's location anytime with the greatest possible accuracy by accessing location information from the PetFinder® Network's location databases.

- **Make Fences**

Designate Safety Zones and Danger Zones when you set up your PetFinder device and get alerted instantly when your pet enters or leaves a Zone.

- **Speed Alerts**

Look up how fast your pet is traveling and set speed limits. Get alerted instantly if your Speed Limit is ever broken.

- **Talk to Me**

When you access your device's location by phone, the network uses voice technology to tell you where your PetFinder is—perfect for users without Internet access.

- **Turn by Turn Directions**

When you look up your PetFinder's location online, you can instantly receive GPS guided turn-by-turn directions that tell you the fastest way to find it!
